## Description

First class pedigree: Frers naval architecture for the exterior, Sinot design for the interior, and built in the Netherlands by KM Yachtbuilders. Launched in 2012 she is a true sailor's yacht. Designed and built for a very experienced Dutch owner who wanted to go anywhere, she has proven to be a true worldcruiser. Aluminum hull and superstructure, carbon rigging, liftkeel 3m20/5m10, super isolated and soundproofed. Tulip has her full beam master cabin plus two comfortable guest cabins forward, all with bathroom ensuite. The guest cabins can accommodate three guests each. Crew quarters for two are aft, excellent privacy. Tulip was built with no expenses spared and she is for sale now for the first time. A sleek and timeless beauty with an edgy touch. Lying Palma.

**Interior photos will follow shortly.**

## Information & Features

### 2011 Perkins M 215 C (Engine 1)

Type:	<b>Inboard</b>	Drive Type:	<b>Direct Drive</b>	Folding Propeller:	<b>true</b>
Fuel Type:	<b>Diesel</b>	Power:	<b>150 kW</b>		
Hours:	<b>2750</b>	Propeller Type:	<b>4 Blade</b>		

### Dimensions

LOA:	<b>26 m 60 cm</b>	Min Draft:	<b>3 m 20 cm</b>
LWL:	<b>22 m 4 cm</b>	Max Draft:	<b>5 m 10 cm</b>
Beam:	<b>6 m 12 cm</b>		

### Weights

Displacement:	<b>52,000 kg</b>
---------------	------------------

### Tanks

Fuel:	<b>2,800 l</b>
Fresh Water:	<b>2,080 l</b>
Holding:	<b>600 l</b>

### Accommodations

Cabins:	<b>4</b>
Heads:	<b>4</b>

## Exterior

Arriving at the dock the first impression of Tulip is her amazingly clean deck lay-out. The aftdeck is wide and open and comprises two huge lazarettes allowing for uncluttered storage of toys, spare parts, fenders etc.

The steering position features the enormous, trademark Frers, steering wheel with it's lower radius disappearing into a trench. And Frers came up with the ingenious idea of adjustable seats all around the wheel that rotate (electric hydraulic) inwards to hide for a flush deck when racing.

One large cockpit with really large and wide benches reveals the wish for a boat that can be actively sailed with friends. The custom-made folding table easily sits the whole crew for al fresco dining.

The ice-blue pilothouse stands out against the particularly flush deck, with long tinted windows surrounding the structure. Combined with her matching-coloured carbon rig, dark metallic brown paintwork, flat underbody and lifting-keel, the result is a highly on-trend boat.

Tulip is designed to be easily handled by a small crew, her large flush foredeck makes it easy to work. Examples include jib sheets that disappear under deck and reappear a metre before the primaries, and a hydraulically rotating anchor arm that stows forward of the large sail locker.

## Accommodations

Inside, Tulip continues to do what she does on the outside. Dutch company Sinot Yacht Design designed the interior. Colours are bold while dark palisander wood contrasts with light smoked oak.

Tulip is set up to sail with six guests and two crew. These areas are well separated with guest accommodations all forward, and the galley, mess, engineroom and crewcabin aft of the raised saloon. The saloon is a leisure area with a card table, TV and library zones, plus a small chart table forward. The main feature is a zebrano wood table that lifts up, down, in and out electronically.

The huge, slightly curved pilothouse windows provide good views and sun-roof glazing over the entire central length ensures that plenty of daylight finds it's way into the interior. Bulkheads (honeycomb for weight and insulation) are lined with oak and details such as coves and borders are made of dark rosewood.

The two guest cabins forward of the saloon are split by the corridor and lifting keel box and have their own bathroom ensuite with heads and separate shower. The starboard guest cabin features a double bed plus pullman and the portside cabin features bunkbeds that can convert into a double, in such a way that each cabin can sleep three guests.

A forward master cabin with bathroom ensuite was chosen for optimal privacy. The cabin is very spacious and includes a vast in-built closet hidden behind curved doors that blend into the bulkhead.

The crewcabin for two crew, with it's own bathroom ensuite, is situated on portside aft and can be accessed through the galley and crew mess. The crew bathroom has a Miele washer/dryer combo.

Tulip is extremely well soundproofed and insulated, making her remarkably silent and quiet, even with all systems running. There's no problem at all to sleep with the engine running.

## Galley

The galley area is situated on starboard aft, a few steps down from the saloon and includes a crew mess on the aftside. The galley area has a large window by the stove and an overhead hatch for added daylight and ventilation. Workspace is plentiful and the galley is equipped with a gimballed Siemens 4-burner induction cooker and oven with extractor fan above, two sinks (one with macerator), custom made fridge and freezer.

## Engine room

The engine room is accessed through the galley and has an emergency escape through to the deck on portside. The Perkins Sabre turbodiesel main engine is centrally located and is connected to a ZF80A gearbox and 60mm SS shaft to the Brunton 4-blade varifold propeller, protected by propspeed.

Cummins Onan generator, 5.200 hours. Shore power Magnus SP100 24 kVA 80A.

Batteries 8 x 160AH/24V Mastervolt lithium.

Battery chargers: 4 x Mastervolt.

Inverter: Mastervolt MASS SINE 24/5000.

Voltage: 230V AC Single phase 50Hz.

FEIT TSL24/28 deckwash pump.

Bilgepumps: 8 x RULE with additionally 1 x electric pump and 1 x diesel pump as backup.

Seawater pump for fire extinguishing with connections bow, stern and midship.

MARVAIR airconditioning reverse cycle.

Duct strip heaters for additional heating.

Watermaker Tecnicomar Sailor MD1500 slim version.

## Rigging and sails

Hall high modulus carbon mast.

Hall carbon boom with lazyjacks.

Carbon standing rigging.

BAMAR GFSI 25 flushdeck Furling on forestay.

Reckman SF12 furler on removable inner forestay.

North 3DL main (195m<sup>2</sup>) and jib (140m<sup>2</sup>) 2017.

Gennaker (591m<sup>2</sup>) 2019.

Code (337m<sup>2</sup>), staysail (84m<sup>2</sup>), stormjib original.

Boomvang Navteq A850-VC-060C

Winches Harken 990 and Lewmar LM577.

## Navigation

Compass: Simrad RC25 fluxgate, 2 x C Plath Venus H  
Echosounder/LOG/WIND: B&G H3000 cockpit, mast, helm  
VHF: Thrane&Thrane Sailor 6222 VHF DSG and 2 x ICOM IC-M23  
Radar: Nobeltec IR2-4D  
Autopilot: Simrad AP50  
GPS: Furuno GP32
