Description

The best description is provided by Morris shipyard:

" We started with the award-winning quality, distinctive good looks, and innovative engineering that goes into every M-Series we build, then we partnered with Sparkman & Stephens to push the design envelope to ensure maximum sailing performance in all conditions. We added go-fast features like a tall carbon fiber rig from Hall Spars and high-performance 3Di sails from North Sails. A deep high aspect ratio fin keel to provide rock-solid stability and enhanced sail carrying ability. A carbon fiber wheel to deliver finger-tip control. And each slippery fast hull faired to ultra-precise tolerances and covered with drag reducing bottom paint. X-Type models redefine what a luxury performance boat can be."

Grace Darling was built for an exceptionally involved sailor and is a reflection of the best that Morris can deliver. "Better than new" is often said but you are welcome to come visit and convince yourself. We have so many details and information to share: call me at my mobile phone +31 653 10 50 02 for a full and detailed specification. Or for a visit!

The Morris 42X is a fantastic yacht for daysailing or for a 2-person getaway trip!
